

## Kitten Foster Spotlight: Fran

Fran has been fostering kittens for 4 Paws for 17 years!

She chose to be a foster because after the first one “she was hooked”

When asked what some of the rewards of being a foster were, Fran said “All the unconditional love. Knowing the kittens will be going to loving, forever homes. The success of socializing feral kittens into loving, friendly, adoptable kittens”

When asked if there were any certain fosters that held a special place in her heart, Fran replied “I took on the challenge of taming a feral litter of 6. It took time and patience but they came around. Two of them were adopted immediately, three others were adopted a bit later and one is still at the shelter. I am the only one that can touch him. My one regret is that I didn’t adopt him five years ago.”
