

Senior Foster Spotlight: Lucky (Audrey & Larry Schander)

Audrey and Larry have been fostering for Sun Cities 4 Paws since 2010. They became foster parents after they retired because they wanted to provide a home for a cat that otherwise might not get a home but had financial limitations if the cat became ill. The first cat they had was Disney.

“When Lucky came to the shelter with 25 BB’s in her, needing multiple surgeries including an eye removal, and other medical issues, 4 Paws started a fundraiser to help cover her expenses. We donated, but also wanted to foster her when she was ready. There were other people ahead of us, but after a few weeks we got a call asking if we wanted to foster her. WE DID!!

She has been a wonderful addition to our family.

She is a loving, playful, curious kitty.

Thanks to their Foster Program at Sun Cities 4 Paws and the help with medical expenses, we have a loving family member.” said Audrey.
